

As the Equine Specialist you will be primarily responsible for the coordination and use of horses in Medicine Horse Center of Montana: 5 x 5 Program for Veterans and equine-related treatment and activities. You will be part of the MHCM team that provides a range of equine related therapeutic and activity-based interventions for MHCM clients and community partners. You will assist MHCM Therapist in the implementation and delivering of equine related activities to community partners with the assistance of MHCM personnel as needed.

#### Responsibilities

- Participates in equine therapy in collaboration with other MHCM personnel.
- Conducts equine-related activities for individuals and groups.
- Assists in ensuring arena and animal areas are maintained at all times.
- Maintains horse equipment to ensure safety.
- Makes sure all updates, logs notes, and other documentation are completed as outlined.
- Actively promotes a safe work environment.
- Attends and actively participates in team meetings and other meetings/trainings as required.

#### Must Haves

- EAGALA/PATH/or Natural Lifemanship or equivalent equine therapy certification
- Veterans' Preference
- Minimum of three years working with equine/livestock
- At least 21 years of age

#### Skills/Talents

You've got passion. You want to make a difference and have a desire to assist your comrades in arms. You get excited about the possibility of having a real impact and working closely with a committed team to create something transformative. You see what's possible and don't let obstacles deter you. You like to get focused on a vision and work diligently to achieve it. Your passion is evident in your interactions.

You like to have fun.

You like a challenge and enjoy a dynamic environment. You're okay with being the go-to person for problems, challenges and opportunities. You like to be the master of your environment and learn a system inside and out so you can make the most of your experience.

You're a pro. You have a high personal standard of excellence, a strong work ethic and commitment to mission. You're looking for a new opportunity to leverage and grow your skills, to make a unique contribution to a team effort – to stretch your knowledge, skills and character. You have an innate ability to recognize shifting priorities and adjust accordingly. You understand the power of relationships, the value of persistence, the reward of professionalism, the fun of discovery and the inevitability of change. You're respected by your peers and can get results where others struggle. Integrity isn't something you have, it's who you are.
